ORDER AMENDING CERTIFICATE OF PUBLIC GOOD

This case involves a petition filed by Green Mountain Power Corporation (“GMP” or the “Petitioner”) with the Vermont Public Utility Commission (“Commission”), pursuant to 30 V.S.A. § 248(j) and Commission Rule 5.400, requesting the issuance of a certificate of public good (“CPG”) for the construction and operation of a battery storage system with a capacity of 1 MW/4 MWH located on the site of the GMPSolar Panton Project in Panton, Vermont, to be known as the “GMP Panton Battery Storage Project” (the “Project”).

On January 22, 2018, an order and CPG were issued approving the GMP petition for the Project.

On February 7, 2018, GMP filed a letter with the Commission indicating that Condition #4 of the CPG was erroneously included in the CPG and should not have been. GMP asked the Commission to delete Condition #4 and make certain clerical corrections to the CPG to make it internally consistent with the deletion of Condition #4. GMP also asked that the title of the CPG be corrected to read “Section 248,” not “Section 24.” GMP represents that it has discussed the changes with the Agency for Natural Resources (“ANR”) and is authorized to state that ANR agrees with the assessment that these are clerical mistakes and should be corrected.

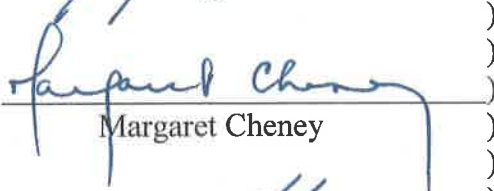

On February 8, 2018, the Department of Public Service filed a letter supporting GMP’s request.

No other comments were received by the Commission.

Having reviewed the record, we find that Condition #4 was incorrectly included in the CPG. Therefore, we grant GMP's request, delete Condition #4, and make clerical corrections to the CPG to make it internally consistent with the deletion of Condition #4.

SO ORDERED.

Dated at Montpelier, Vermont, this 16th day of February, 2018.
