**To:** PUC - Clerk  
**Subject:** Investigation into safety and construction of VGS pipeline is imperative.

To the Public Utilities Clerk:

I am requesting that no further action be taken on cases involving Vermont Gas pipeline, including Notice of Probable Violation (18-0395-PET) and CPG for Monkton gate station(17-4909-PET), until a broad scope investigation of safety and construction violations has been completed, as requested by intervenors on March 1 filing to case (17-3550 INV). This project has been a disaster since Day 1, with VGS grossly overcharging, hiring questionable contractors, saying one thing and doing another, the careless taking of the harsh sunflowers, disturbing wetlands, and generally not knowing what they're doing, but bulling their way ahead. The public deserves better.
