Subject: Review of safety violations needed

To the members of the Public Utilities Commission,

I am writing to request that you suspend consideration of the following cases: 18-0395-PET, 17-4909-PET.

On March 1, intervenors in the pending investigation case (17-3550-INV) requested a thorough review of the broadened scope of safety violations in the construction of the Addison Natural Gas Pipeline. I ask that no further action on the cases mentioned above should be taken until the requested review is completed.

Thank you for your consideration of my request and for informing me of your subsequent actions.

Andrew Simon

NOPV case (18-0395-PET), and the currently pending CPG case for the Monkton Gate Station (17-4909-PET) should both be put on hold - no decisions made, no actions taken - UNTIL AND UNLESS the pending investigation case (17-3550-INV) has included and completed a thorough review of the broadened scope of safety violations - as requested by intervenors in their March 1 filing!
