**Subject:** Public Safety RE: NOPV case 18-0395-PET and pending CPG case 17-4909-PET

In the interest of public safety, I ask that both the above cases be put on hold until the pending investigation (case 17-3550-INV) has been completed, which will include a thorough review of the broadened scope of safety violations. No decisions can be made appropriately, no actions decided correctly, until the full scope of safety violations has been determined. Thank you for putting public safety first in this way.
