Subject: Vermont Gas Pipeline - request for investigation into safety violations and oversight

Good morning,

I am very concerned about recent developments regarding the unearthing of numerous safety violations by Vermont Gas and until these issues are resolved, I urge you to stop all future Vermont Gas pipeline activities. Most important are the Notice of Probable Violation (18-0395-PET) and CPG for Monkton gate station(17-4909-PET). Please keep our citizens and land safe until a broad scope investigation of safety and construction violations has been completed, as requested by intervenors on March 1 filing to case (17-3550 INV).

Thank you,
Janice Nadworny
