Subject: NO VT SYSTEMS GAS PIPELINE!!!

Dear Judith,

This pipeline will kill quality of life in VT! Terrible for the environment and terrible for safety of the people! Too many risks and old evil systems involved here. We are moving forward with green energy- that's what VT is about! Nature, health and genuine quality of life. We have to say no to this and go with the right move for a green future. Please take no further action on the notice of probable Violation case 18-0395- PET and case CPG 17-4909-pet until pipe-wide investigation of safety and construction violations have been complete!

Thank you

Stacy Hopkins from Hartland VT
