Subject: Case #18-0395-PET and case #17-4909-PET

To the Vermont Public Utility Commission:

I request that no further action be taken on cases involving the Vermont Gas Systems Addison Natural Gas pipeline until a broad scope investigation of safety and construction violations has been completed, as requested by intervenors in their March 1 filing in docket 17-3550 INV. The cases for which I am requesting a pause include the Notice of Probable Violation (18-0395-PET) and the application for a Certificate of Public Good for Monkton gate station (17-4909-PET).

Respectfully,
Lilian Shen
