Subject: Regarding 17-3550-INV

Please convey to the Public Utility Commission my concern that the apparent violations of the CPG given to Vermont Gas Systems for construction of the Addison Natural Gas Project be appropriately investigated and determined before proceeding.

Please hold decisions on NOPV case (18-0395-PET) and the Monkton Gate Station (17-4909-PET) until the review is completed.

Thank you,

Ned Swanberg
