Subject: VGS Pipeline infractions

Hello,

I'm quite concerned about the very many serious public safety violations in construction of the VGS pipeline.

I'd like to request that the PUC take no further action on the Notice of Probable Violation case (18-0395-PET) and the Monkton gate station CPG case (17-4909-PET) until a pipe-wide investigation of safety and construction violations has been completed as requested on March 1st by the intervenors in case (17-3550-INV).

A pipeline spill resulting from these infractions could seriously damage the clean water and pristine environment that is Vermont's greatest resource. Please help protect it.

May Your Arrows Fly True,
