**To:** PUC - Clerk  
**Subject:** CPG for VGS new pipeline

Please don't ignore the documented non-compliance construction standards that have been brought to your attention by citizens concerned for public safety. These need to be investigated and the CPG withdrawn.

Consumer demand is nothing like VGS claimed it would be and it would not be a hardship to shut the pipeline down before a major accident happens with loss of life and property.

Sincerely,  
Ron Slabaugh  
Middlebury
