

STATE OF VERMONT
PUBLIC UTILITY COMMISSION

Case No. 17-2813-PET

Petition of Green Mountain Power for a certificate of public good pursuant to 30 V.S.A. § 248(j), authorizing the installation and operation of a battery storage system on the GMP Solar Panton Project site located in Panton, Vermont, to be known as the “GMP Panton Battery Storage Project”	
---	--

Order entered:04/13/2023

PROCEDURAL ORDER REGARDING CERTIFICATE OF PUBLIC GOOD COMPLIANCE FILING

On October 29, 2020, in the above-captioned proceeding, the Vermont Public Utility Commission (“Commission”) issued an amended certificate of public good (“CPG”) to Green Mountain Power Corporation (“GMP”) authorizing GMP to make additions and improvements to the existing Panton Battery Storage Project (the “Battery Project”) to allow the Battery Project to “island” a portion of the Town of Panton in the event of an outage. As a condition of the amended CPG, the Commission required:

The CPG Holder shall file with the Commission within six months of its initial implementation of the islanding function a report detailing the results of its initial implementation, including any unforeseen failures and costs, its expected timeline for expansion of the islanding function, the number of customers it expects to serve with that function and the schedule under which they will be served, and the trajectory of expected economic benefits that will result from that expansion.¹

Since approximately two and a half years have passed since the amended CPG was issued, it appears highly likely that more than six months have passed since the initial implementation of the islanding function. Therefore, I direct GMP to file the report required by condition 2 of its amended CPG as soon as possible, unless initial implementation of the islanding function was delayed and six months have not yet passed, in which case, I request that GMP file a status update on the Battery Project within 30 days of the date this Order is issued.

¹ *Petition of Green Mountain Power for a certificate of public good pursuant to 30 V.S.A. § 248(j), authorizing the installation and operation of a battery storage system on the GMP Solar Panton Project site located in Panton, Vermont, to be known as the “GMP Panton Battery Storage Project”, Case No. 17-2813-PET, CPG of 10/29/2020 at Condition 2.*

SO ORDERED.

Dated at Montpelier, Vermont, this 13th day of April, 2023.
